The **KNOX-BOX**[®] rapid entry system is a secure emergency access program developed for property owners and fire departments. When a fire breaks out or there is a medical emergency, Knox[®] products allow immediate entry into buildings and property without forced entry damage or delay. Property owners store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near building entrances. Each KNOX-BOX purchased by a property owner is keyed to a single master key controlled by the fire department.

In addition to key boxes and vaults, KNOX-BOX padlocks and key switches operate with the same master key. There are so many gated communities today that fire and police departments are delayed when responding to emergency calls. Increased property damage and even total loss is a threat when property is not accessible.

The Knox Rapid Entry System was developed to save property and lives.

To order a KNOX-BOX Rapid Entry System, please follow the Online Ordering Instructions.

There is only one company to order them from. The company is the KNOX-BOX company, and they can be found: <http://www.knoxbox.com>

The model best for you, as most businesses in town, is the 3200 series box. The exact model we recommend is the 3262 black in color. It is a surface mounted box with a hinged door.

Price list here: http://www.knoxbox.com/store/files/KNOX_PriceList.pdf

Here is the direct link to the box. You can order online, which will send me an e-approval:
<http://www.knoxbox.com/store/Store.cfm?category=100907155822940710&resetDept>

Make sure you choose Robbinsville Fire Department when you choose the Fire Department. Each box is keyed for specific departments.

If you should have any questions, please feel free to contact me. My contact information is above.
