Recycling Coordinator—kingenbrandt@robbinsville.net

Household Trash Collection Regulations

Garbage may not be placed at curbside before 9:00pm the night before scheduled pickup and must be at curbside by 6:30am the day of pickup. Empty cans must be removed from curbside by 9:00pm the day of collection.

TRASH CONTAINERS MAY NOT BE LARGER THAN 64 GALLONS.

The weight of each trash bag or can may not exceed 50 pounds. Please help us in this area. Containers (up to 64 gallons) can get heavy very quickly, depending on density of the contents. Please give us the courtesy of testing the weight of your cans. If they feel too heavy, please use another can or bag! Injuries to employees cost tax dollars. Overweight cans or bags will not be picked up. In such cases, a notice of violation may be left on your can, and the load must be redistributed into containers of less than 50 pounds each.

Please check the integrity of you cans. Cans with jagged, sharp or cut edges, rotted bottoms, no handles are **safety hazards**. Please replace these cans for safety's sake. For severe cases, a notice of violation may be left on your can, and such a can must be removed from service.

Household garbage should contain **trash only**. Please remember our community goals for reducing the amount of solid waste through use of recycling. The cost to taxpayers for recycling is much less than for garbage sent to the landfill.

Please do **not** put out trash or other items in **cardboard boxes**. Cardboard boxes are a recyclable item and cannot be taken with household trash, or used as a container. This will result in the box being left at curbside.

UNDER NO CIRCUMSTANCE SHOULD HOUSEHOLD TRASH CONTAIN HAZARDOUS WASTE ITEMS. This will result in your trash container being left curbside and could result in further action.

Do not place full or partially full paint cans in with your trash. Paint containers leak when compacted and drain onto the ground leaving unsightly residues on our streets. Paint must be dried out by mixing dirt, cat litter or sand into the paint and only when completely dried can they be put to the curb with the lids off for collection.

METAL / APPLIANCES / TV's & COMPUTERS—Appliances such as washers, dryers, refrigerators, dishwashers, microwave ovens, lawnmowers, grills, etc. and/or heavy metal items are picked up on the last Wednesday of each month. TV's, computers will also be picked up at this time. These items must be scheduled for pick-up through the Public Works Department. **Please call 609-259-0422 BEFORE the scheduled collection day.**

ARTICLE III
Dispos
ARTICLE III
Disposal of Garbage and Rubbish
[Adopted 12-31-2001 by Ord. No. 2001-37 as § 19-6.10 of the 2001 Code]

§ 220-13. Definitions.

As used in this article, the following terms shall have the meanings indicated:

BUILDING MATERIALS — Any material such as lumber, brick, plaster, gutters, roofing shingles or other substances accumulated as a result of repairs or additions to or the demolition of existing structures, or construction of new structures.[Added 8-19-2021 by Ord. No. 2021-25]

BULK ITEMS — Large single items such as, but not limited to, furniture, mattresses, box springs, household articles of an unwieldy nature, containers and other such waste usually disposed of by households.[Added 8-19-2021 by Ord. No. 2021-25]

BUNDLE — A collection of normally loose items that are tied with twine. A bundle shall not measure more than four feet in length and shall not exceed 50 pounds in weight. Bundles shall be placed for municipal collection so as to be conveniently handled by one person.[Added 8-19-2021 by Ord. No. 2021-25]

GARBAGE — The refuse or residue of animal or vegetable matter that has been used as food and all refuse, animal or vegetable matter, including carcasses and parts of dead animals. It shall include fowl, manure, decayed vegetables fruit, or any condemned food.

HOME REPAIR DEBRIS — Any waste building materials and/or debris resulting from construction, remodeling, repair or demolition operations performed by a resident.[Added 8-19-2021 by Ord. No. 2021-25]

MUNICIPAL COLLECTION — The collection of garbage, rubbish, nonrecyclable paper, home repair debris, and trade wastes by or on behalf of the Township from residential properties.[Added 9-21-2020 by Ord. No. 2020-05; amended 8-19-2021 by Ord. No. 2021-25]

NONRECYCLABLE PAPER — Shredded paper, coated paper, and cardboard.[Amended 8-19-2021 by Ord. No. 2021-25]

RUBBISH — All miscellaneous matter and bulk items, such as rags, old clothes, shoes, broken glass, leather, carpets, crockery, rubber, cut grass, or lumber.[Amended 8-19-2021 by Ord. No. 2021-25]

TRADE WASTES — All materials resulting from any home-based business, trade, or industry.[Amended 9-21-2020 by Ord. No. 2020-25]

§ 220-14. Deposit in certain areas prohibited. [Amended 8-19-2021 by Ord. No. 2021-25]

- A. Highways; private and public property. No person shall deposit or throw garbage, rubbish, nonrecyclable paper, home repair debris, or trade waste on or along any public or private highway, road, or street within the Township or on any public or private property.¹
- B. Streams or bodies of water. No person shall deposit or throw garbage, rubbish, nonrecyclable paper, home repair debris, or trade waste in any lake, stream, or body of water within the Township.

§ 220-15. Timing and placement for municipal collection. [Amended 6-19-2019 by Ord. No. 2019-18; 8-19-2021 by Ord. No. 2021-25]

Garbage, rubbish, nonrecyclable paper, home repair debris, and trade wastes may be placed out for municipal collection after sunset of the day before collection and must be removed from the curbside by 9:00 p.m. of the day of collection in accordance with the rules and regulations of the Township.²

§ 220-15.1. Limitations on municipal collection. [Added 9-21-2020 by Ord. No. 2020-25; amended 8-19-2021 by Ord. No. 2021-25]

- A. No more than five bags or approved containers, in accordance with § 187-13, or any combination thereof, containing garbage, rubbish, nonrecyclable paper, and trade wastes shall be placed out for any one municipal collection.
- B. No more than two bulk items shall be placed out for any one municipal collection. No bulk item shall be of a weight or be of a size greater than can be safely handled by two persons.
- C. No more than two tied bundles or two containers, each weighing no more than 50 pounds, of home repair debris shall be placed out for any one municipal collection, which items shall be included within the limitation set forth in Subsection A above. All nails, tacks, staples or similar hazards not removed from home repair debris shall be bent over and flattened so as to reduce the risk of injury.
- D. Any garbage, rubbish, nonrecyclable paper, home repair debris, or trade wastes not placed curbside in a proper manner and/or removed within the time limit set forth in § 220-15 shall, in its sole discretion, be removed by the Township in the interests of public health and safety, and the Township shall bill the owner of said property in the actual amount to remove the garbage, rubbish, nonrecyclable paper, home repair debris, or trade wastes, in an amount not to exceed \$500. Failure of the owner of said property to pay said bill may result in a lien being placed upon the property.

§ 220-16. Use of sanitary landfills and incinerators.

The deposit of lawful materials in any lawfully operated sanitary landfill or incinerator is permitted.

§ 220-17. Violations and penalties.

Any person who violates any of the provisions of this article shall, upon conviction thereof, be liable to the penalty stated in Chapter 1, Article II, General Penalty.

How Do I get Rid of It Guide For Robbinsville Township

APPLIANCES OR ANY METAL ITEM Call Public Works at 609-259-0422 to schedule a pickup the last Wednesday of each month or you may drop them off at Public Works.

BATTERIES (Car/Boat/Wet Cell) - Drop off at Public Works only.

BATTERIES (Alkaline/Dry Cell ex: AAA, AA, C, D & 9volt) - Household trash **Do Not Recycle**

BATTERIES (Rechargeable ex: watch, cell phone, power tools & camera batteries - Drop off locations at Public Works and Senior Center.

BUILDING MATERIALS/ HOME REPAIR DEBRIS - Household trash cut up in no longer than 4-foot lengths, tied and bundled, bagged, or put into a container no more than 50 pounds, nails and screws removed or bent over to avoid hazards.
Limited to two bundles, bags, or containers per week.

CARBON OR SMOKE DETECTORS/ ALARMS – These can go into your household trash but you are encouraged to return them back to the manufacturer.

CARPET Household trash cut into strips no more than 4 foot wide, tied and bundled no more than 50 pounds. **Limited to one room per week.**

CHRISTMAS TREES Residents may place their Christmas Trees curbside and Public Works will begin collecting them starting the first workday after New Year's Day and will continue collections weekly through January. Trees may be dropped off at the Public Works Department located at 56 Robbinsville-Allentown Rd.

COMPUTERS/ TELEVISIONS/ PRINTERS/ MONITORS & COMPUTER ACCESSORIES call Public Works at 609-259-0422 to schedule a pickup the last Wednesday of each month or you may drop them off at Public Works. Mercer County Household Hazardous Waste Collection Day. See www.mcyanj.org for dates and times.

CONCRETE/PAVERS/CINDER BLOCK - Household trash broken up in buckets no more than 50 pounds and in limited quantities (**no more than 3 buckets**)

DIRT OR SAND Check listings for local landscaper for removal.

FIRE EXTINGUISHER Discharge contents into a bag for garbage. Drop off at Public Works or call for white goods pickup before the last Wednesday of the month.

FLAGS (USA & POW) – Drop boxes at Police, Municipal Building & Senior Center.

FLUORESCENT LIGHT BULBS & TUBES Mercer County Household Hazardous Waste Collection Day. See www.mcyanj.org for dates and times.

FURNITURE (ex: sofa, chair, wood table & dresser) Household trash. **Limited to two items per week.**

INCANDESCENT LIGHT BULBS Household trash.

How Do I get Rid of It Guide...continued

MATTRESS and/or BOX SPRING Household trash—must be wrapped in plastic of sufficient strength to avoid tearing & cover all exposed areas or in mattress bags. **Limited to two items per**

MEDICATION Pills, Capsules, Patches, Inhalers & Pet Medications (NO LIQUID OR SYRINGES)
Drop box inside the lobby at Robbinsville Police Department

MOTOR OIL Drop off at Public Works only.

PAINT (Latex ONLY) Household trash only after paint is completely dry. Mix cat litter, sand or dirt in paint can & let sit until dry then place at curb for pick-up on your collection day.

PAINT (Stains, Varnish & Oil Based) Mercer County Household Hazardous Waste Collection Day. See www.mcianj.org for dates and times.

PIZZA BOXES Household trash only. These items are no longer recyclable regardless of condition.

PROPANE TANKS Mercer County Household Hazardous Waste Collection Day.
See www.mcianj.org for dates and times.

STYROFOAM/PACKING PEANUTS/BUBBLE WRAP Household trash.

SWINGSETS/JUNGLE GYMS (wood and plastic) - Household trash - Wood must be cut in no longer than 4 foot lengths, tied and bundled no more than 50 pounds, nails and screws removed or bent over to avoid hazards. Plastic (Little Tykes/Step 2) broken down and placed at the curb. **Limited to two bundles per week.**

TIRES Drop off at Public Works only (must be off rim).

TOILETS, SINKS, VANITY Household trash. **Limited to two items per week**

When in doubt....

THROW IT OUT!

Please note: In accordance with Chapter 220 of the Robbinsville Township Code, the Township provides for the collection of garbage along the public roads, and some private roads, within the Township. If you live in a development governed by a Homeowners' Association ("HOA"), you must contact the HOA or respective property management company for guidance on how to dispose of certain garbage, such as furniture or other bulk items, plastic, wood, etc., especially where garbage is usually deposited into dumpsters. The Township only collects such items where it directly provides curbside garbage collection.

Guidelines for Proper Disposal of Household Medication

Over the counter and prescription medications should not be disposed down the drain because wastewater treatment facilities are not designed to remove pharmaceutical compounds and they may end up in your local waterways, and may eventually be found in drinking water. Properly disposing of unwanted and expired prescriptions and over-the-counter medications in the trash promotes a healthy aquatic environment and prevents accidental poisoning and intentional abuse.

4 Steps for Proper Medicine Disposal

1. Keep medicine in original container. Mark out personal information on prescription bottles.
2. Mix liquid medicine with undesirable substances like coffee grinds, cat litter, or dirt. Dilute pills with water, then add coffee grinds, cat litter, or dirt.
3. Place bottles in an opaque container, like a yogurt container, and secure lid; or wrap in a dark colored plastic bag.
4. Hide the container in the trash. Do **NOT** recycle.

Do **NOT** dispose of medication down the drain or toilet.

Do **NOT** keep excess or expired medication around the home.

Prevent water pollution, Promote a healthy environment, Properly dispose of your unneeded and expired medication.

Nearest medicine drop-off location:

Robbinsville Township Police Department
(located in the lobby)
1117 Route 130
Robbinsville, New Jersey 08691
609-259-3900

How to Safely Dispose of Your Syringes in Your Municipal Trash

Follow these steps to safely dispose of your syringes in your municipal trash. Your syringes must be placed in rigid containers that will protect people from needle sticks and use containers that are unlikely to break open on its way to the landfill.

1. **Rigid Container** You may use empty laundry detergent bottles or 2-liter soda bottles or other rigid containers with screw-on caps to dispose of needles and syringes.
2. **Label/Warning** Place a large label with a warning on the empty container.
Example: SYRINGES—DO NOT RECYCLE
3. **Needle Clipper Clip the Needle** You can buy an inexpensive hand held needle clipper from the pharmacy. After clipping the needle, carefully place each of your used needles and syringes into your rigid container and close.
4. **Seal** When you are ready to dispose of your syringes, seal the bottle tightly and wrap duct tape over the lid.
5. **Disposal** You may now dispose of you **labeled and tightly sealed** container in your household trash. Do **NOT** recycle.

For more information please visit: <http://www.state.nj.us/health/eoh/phss/syringe.pdf>

Battery Information

Alkaline Batteries

In 2004, the Mercer County Improvement Authority (MCIA), www.mcianj.org, notified the Township in writing that they were doing away with the battery recycling program. Since Mercury is no longer used in the production of batteries, they no longer pose a threat to the environment and can be thrown away with your household trash.

Button Cell Batteries

Most button cell batteries still contain mercury. These batteries can be brought to the Mercer County Chemical Waste Disposal Day or a battery drop-off site. If you believe you are in possession of a battery that contains Mercury or have additional questions about the program, please contact the MCIA at 609-278-8100.

Batteries that are rechargeable are recyclable.

- .Nickel Cadmium (Ni-Cd)
 - .Nickel Metal Hydride (Ni-MH)
 - .Lithium Ion (Li-ion)
 - .Nickel Zinc (Ni-Zn)
 - .Small Sealed Lead (SSLA-Pb)
- *Weighing less than 11lbs. each*

Rechargeable batteries can be found in cordless power tools, cellular and cordless phones, laptop computers, digital cameras, two-way radios, camcorders, and remote control toys. These batteries sometimes look like regular alkaline batteries. The label on the battery will indicate if it is rechargeable.

Preparing Batteries for Recycling

For increased safety when transporting rechargeable batteries, the Federal Department of Transportation (DOT) has enacted new regulations which require special preparations before batteries are transported. **Residents must either individually bag each battery or place a piece of tape on each of the terminal ends.**

Collection Site Locations

You can bring your **rechargeable** batteries to Public Works at 56 Robbinsville-Allentown Rd. or to find the retail collection site nearest you, please use the collection site locator at www.rbr.org or call the consumer helpline, 1-800-8-BATTERY or 1-877-2-RECYCLE

Grass Clipping Collection Alternatives and Tip

Cut It and Leave It

Under a new "Cut It and Leave It" program, Robbinsville Township now encourages you to cut your grass and leave it on the lawn to help fertilize it and retain moisture. This process is also known as "[Grasscycling](#)", meaning a natural recycling of grass clippings. [Grasscycling](#) saves time and money, as you no longer have to purchase and fill bags for grass, the lawn stays healthier, it lowers your need to fertilize by up to 30%, and it reduces the cost the township pays to dispose of solid waste. (Currently \$140.25 a ton). Landscapers are also encouraged to [Grasscycle](#) properly.

Cut Your Grass High: Longer blades of grass mean the root system below the ground will also be longer (deeper) and healthier. Longer blades of grass tend to collect more light and grow healthier and higher blades often help block out crabgrass and invading weeds.

Cutting Height: Don't remove any more than one third of the grass leaf at any one cutting. If circumstances arise that a lawn gets too tall and you just have to lop off a bunch to get caught up, bite the bullet and break it down into several mowings to get caught up, with three or so days between cuttings.

Mow Only When the Grass is Dry: When you mow your lawn when the grass is wet, you're just going to get clumps of grass, uneven cuts and invite all sorts of fungus to grow.

Mow Only When the Grass is Cool: Try to mow your grass early in the morning, not in the middle of the day, especially if you're going through a dry period or your grass is wilting.

Don't Use A Bagger: By cutting your lawn without a bagger and leaving the clippings on the lawn, you're adding extra nitrogen, water and nutrients back in the soil as those clippings decompose. Contrary to popular opinion, grass clippings do not add to thatch buildup.

Change Direction Each Time You Mow: When you cut your lawn in several different patterns you'll avoid creating ruts or pathways in your lawn from repeatedly going over the same spot each week. If you're leaving your grass clippings on your lawn and you have some small clumps, try going over your lawn again quickly in another direction to disperse them. For a rectangular lawn, you have lots of cutting pattern options like concentric circles, "up and down," "back and forth," on a diagonal (left and right) or even a combination.

Mower Maintenance: This is kind of a no-brainer, but a lot of people forget about this. Keep your mower in good working order. Always clean out grass clippings and debris when you're done, keep the fuel and oil relatively clean and fresh, and keep the blades in good condition. It depends on how large your lawn is, but generally I find that buying new blades once a season or having my existing blades sharpened several times a season works for me. Keep an extra blade around so you'll always have a sharp one on hand.

Single Stream Recycling Guidelines
Mercer County Improvement Authority
609-278-8086 or visit www.mcianj.org

On January 1, 2024, Robbinsville Township entered into the Mercer County Curbside Recycling Program (MCIA). By doing this, the town is saving a considerable amount of money versus hiring a company to collect our recyclables. Our towns recycle days will remain the same however, the only difference is MCIA will be running the program. **Please call 609-278-8086 to report missed stops.**

Recyclables must be placed in the official bucket(s) & must be at the curb by 6:30am

For replacement buckets, please contact Robbinsville Public Works at 609-259-0422 or stop by the office at 56 Robbinsville-Allentown Rd, Monday through Friday, 6:30 am to 3 pm.

Other Helpful Recycling Information

First, collections are rarely canceled due to weather conditions. However, if extremely severe weather conditions exist, please contact the MCIA hotline at 609-394-0100 24 hours/ 7 days/ week.

For safety purposes, if snow or ice conditions exist, please ensure your collection containers are visible and easily accessible.

On windy and rainy days, make sure cardboard boxes are broken down and bundled with string or tape. In your commingled recyclables container, place the heavier items, such as glass bottles and jars, on the top of the pile so that the aluminum cans and plastic bottles and paper won't blow away.

The Public Works Department has lids available for purchase at 56 Robbinsville-Allentown Rd. Monday through Friday, 6:30 am to 3:30 pm. 20 gallon lids (for the older yellow and green buckets) are \$5.00 each and the 32 gallon lids (for the newer Kelly green buckets) are \$6.00 each. Lids must be purchased in person.

- Hard Cover Books (Hard cover must be removed)
- Glass Food & Beverage Jars/Bottles (all colors)
- Aluminum & Metal Beverage Containers
- Pet Food Cans
- Milk Jugs & Plastic Beverage Bottles
- Detergent & Shampoo Containers
- Juice Boxes & Juice/Beverage Cartons
- Plastics with #1, #2, & #5 Symbols

RECYCLE RIGHT!

FOLLOW THESE RULES TO ENSURE YOUR MATERIAL IS COLLECTED!

KEEP CONTAMINATION OUT OF YOUR BINS!

THE FOLLOWING MATERIALS ARE NOT ACCEPTED IN YOUR CURBSIDE RECYCLING

- *PLASTIC BAGS*
- *PIZZA BOXES*
- *BATTERIES*
- *Light Bulbs*
- *Aluminum Foil/Baking Pans*
- *Drinking Glasses, Dishes & Broken Window Glass*
- *Ceramics & Pottery*
- *Aerosol Cans*
- *Motor Oil & Anti-Freeze Containers*
- *Clothes Hangers*
- *Bandage Tins & Cookie Tins*
- *Carbon & Waxed Paper*
- *Tissue Paper, Napkins, Paper Plates & Paper Towels*
- *Styrofoam*
- *Plastics with #3, #4, #6, & #7 Symbols*

Brush Collection Policy

The Robbinsville Township Public Works Department will be collecting brush on the 1st & 2nd **full** weeks of each month. Starting the week of [April 6, 2026](#), through the week of [November 9, 2026](#), residents can place their brush out curbside for pickup.

No phone calls will be necessary to schedule pickup.

Residents west of Route 130 will have their brush picked up the **1st FULL** week of the month
Residents east of Route 130 will have their brush picked up the **2nd FULL** week of the month

There will be **NO** scheduled curbside brush pickup from [November 16, 2026](#) through [April 4, 2027](#). There is a drop-off facility at the Public Works Department located at 56 Robbinsville-Allentown Road. Brush may be dropped off all year long between 6:30 a.m. & 3:00 p.m. Monday through Friday, excluding holidays.

All brush is to be cut to a maximum length of six (6) feet and a maximum diameter of six (6) inches. Small twigs may be placed in open buckets or containers and placed near the pile of larger brush for removal. All forsythia, willow vines, firethorns, tall grasses, and briars must be tied in bundles not to exceed six inches in diameter.

NO BRUSH SHOULD BE PLACED IN BAGS!

Logs, stumps, evergreens with roots, or debris from land, etc., as well as commercial trimmings, will *NOT* be collected with brush.

All limbs and brush shall be placed in an orderly manner with all butts (six inches in diameter maximum) facing the roadside. The size of the pile may not be larger than four feet high by 15 feet wide and is limited to one pile per property.

For the safety of pedestrians and motorists, please do not place brush at the curb more than two (2) days prior to the scheduled pickup.

Grass Collection Policy

Grass Clippings are picked up with your regular trash from April through November.

Clippings must be placed in open bags or containers and be out to the curb by 6:30am on the same day as your regular trash collection day.

Bags or containers must not weigh more than 50 pounds or they will not be picked up. Alternatively, we strongly recommend that residents recycle grass clippings by mulching them back into their lawns. This will promote a healthier lawn and save the Township considerable disposal fees which, right now are \$125.00 a ton.

Leaf Collection Policy

Robbinsville Township will perform its annual Curbside Leaf Collection Program beginning the week of **October 19, 2026** through the week of **December 21, 2026**. The NJDEP has mandated that we have 7 days to pick-up leaves after they have been advertised to be placed out for pickup. To accomplish this, the Township has been divided into six (6) sectors; A through F.

PLEASE be reminded that once the leaf crews have gone by your house, in order to keep to the schedule, we cannot accommodate requests for returns until the next scheduled pickup. PLEASE do not place additional leaves out until then.

NO LEAVES SHOULD BE PLACED IN BAGS!

*Place your leaves in wind-rows (long, narrow, neat piles), curbside by the starting dates for your sector.

This is the preferred way of placing your leaves out for collection.

*Do not place leaves within ten (10) feet of a storm drain inlet.

*Do not park vehicles in front of leaf wind-rows....if we can't reach your leaves we can't pick them up!

No twigs, branches, trash, or other debris are to be in leaf wind-rows.

These items must be removed from your leaves prior to our vacuum arrival. These materials damage our vacuums creating equipment downtime which hampers our ability to keep to the schedule. If we find these materials in your leaves, your wind-rows will be left and we will not return until the next pass. At the next pass, your wind-rows will still need to be clear of the materials.

*If you have a contractor/landscaper, they need to be instructed to follow these guidelines, or to take the leaves with them.

Cooperation from every resident is essential for the program's success.

Leaf Collection

In order to comply with new DEP storm water regulations, the town is divided into sectors, and each sector is assigned a specific week to have their leaves picked up curbside. We will repeat going through the sectors from October through December.

2026 Leaf Collection Schedule

A/D	week of - October 19
B/E	week of - October 26
C/F	week of - November 2
A/D	week of - November 9
B/E	week of - November 16
C/F	week of - November 23
A/D	week of - November 30
B/E	week of - December 7
C/F	week of - December 14
As Needed	week of - December 21

SECTOR A: Windswept, Combs Farm, Town Center, Hutchinson Rd., Line Rd., Washington Blvd., Route 33, Cubberly Meadows, Buckley Lane, Chase Ct., Windflower Ct.

SECTOR B: Dalton Meadows, Beechwood Acres, Saran Woods, Crestwood Acres, Highlands, Windsor Meadows, Beechwood Dr., Tindall Rd.

SECTOR C: Meadowbrook Estates, Canterbury Ridge, Landview Estates, Country Meadows, Brookshire, Town of Windsor, Meadowbrook Rd., Windsor Rd. (West of Route 130), Hankins Rd., Voelbel Rd., Perrineville Rd., Allens Rd.

SECTOR D: Stream & Field, The Ridings, Squire's Court, Bresnahan Rd., Windsor Rd., (East of Route 130), Sharon Rd. (Gordon Rd. to Old York Rd.), Walters Rd., Old York Rd., New Street

SECTOR E: Woodside Estates, Washington Greene, Fox Runne, Woods at Washington, Gordon Rd., Sharon Rd. (Gordon Rd. to Route 130), Spring Garden Rd., West Manor Way, Edgebrook Rd., Circle Dr., Robbinsville-Allentown Rd., (Turnpike to Township Line), Springside at Robbinsville

SECTOR F: Hillside Terrace, Washington Hunt, Arbor Walk, Country Gate, Washington Leas, Sandlewood, Richardson Rd.

Household Hazardous Waste and Used Electronics Waste Collection Event

Date: **Saturday, March 21, 2026** **Saturday, June 13, 2026**
Saturday, September 26, 2026

Location: Dempster Fire School
350 Lawrence Station Road
Lawrence Township

Time: 8am to 2pm Rain or Shine

Website: mcianj.org

WHAT TO BRING

AEROSOL CANS
USED MOTOR OIL
PROPANE GAS TANKS
PESTICIDES & HERBICIDES
CAR BATTERIES
PAINT THINNER
OIL BASED PAINT
STAINS & VARNISHES
GASOLINE
ANTI-FREEZE
DRIVEWAY SEALER
INSECT REPELLENTS
MERCURY
FLUORESCENT/CFL'S/
COMPACT LIGHT BULBS

USED ELECTRONICS COLLECTION:

COMPUTER & PRINTERS
COPIERS & FAX MACHINES
STEREOS & TELEVISIONS
MICROWAVES

WHAT NOT TO BRING

LATEX PAINT
HOUSEHOLD BATTERIES
HEATING OIL
INFECTIOUS WASTE
RADIOACTIVE MATERIALS
EXPLOSIVES & MUNITIONS
RAILROAD TIES
ASBESTOS
TIRES
WOOD
FENCING
AIR CONDITIONERS
HELIUM & OXYGEN TANKS
UNKNOWNNS

Electronics Recycling & Shredding Events

Date: **Saturday, April 11, 2026**
Saturday, October 17, 2026

Location: Lot 4/ 641 South Broad St
(across from Mercer County Administration Bldg)

Time: 9am to 12pm Rain or Shine

Website: mcianj.org

**NO
HOUSEHOLD
CHEMICALS**

ACCEPTABLE ELECTRONICS

CAMERA EQUIPMENT
CENTRAL PROCESSING UNITS
CIRCUIT BOARDS
COPIERS
ELECTRIC WIRE
FAX MACHINES
KEYBOARDS
LAPTOPS & PERIPHERALS
MICROWAVE OVENS
MOUSE
NETWORKING EQUIPMENT
PHONES
PRINTERS
SCANNERS
STEREO EQUIPMENT
TELEVISIONS
VCRS

SHREDDING

Maximum of eight boxes and/or bags of paper
No household chemicals
No commercial business

Robbinsville Township Residential Free Paper Shredding Event

Date: **Saturday, May 2, 2026**
Saturday, November 7, 2026

Location: Robbinsville Township Firehouse
1149 Route 130 North
Robbinsville, New Jersey
(Parking Lot adjacent to building)

Time: 9am to 1pm Rain or Shine (or until truck is full)

WHAT TO BRING

PAPER MATERIAL
FILE FOLDERS
RECEIPTS
BILLS
FINANCIAL STATEMENTS
OR ANYTHING YOU MAY
NOT OF RECYCLED FOR
CONFIDENTIALITY
CONCERNS

100 POUND LIMIT

WHAT NOT TO BRING

BOOKS
MAGAZINES
NEWSPAPERS

THESE ITEMS CAN BE DISPOSED
OF THROUGH THE REGULAR
CURBSIDE PICKUP SERVICE

**NO
BUSINESSES
OR
COMMERCIAL
MATERIAL**

Used Electronics Waste

The Public Works Department now has a drop-off location at 56 Robbinsville-Allentown Road for **ONLY** the following used electronic waste:

Computer CPU's
Computer Desktop Units
Laptops
CRT Monitors
Flat Screen/LCD Monitors
Printers (Inkjet, LaserJet, & DOT Matrix Accepted)
Flatbed Scanners
Computer Speakers
Cables
Mice/Keyboards
UPS Battery Backups
...and other computer related peripherals.
Televisions

NO DVD players, VCR's, stereo units, game consoles or other types of electronics can be dropped off at this time. These items can be taken to the Mercer County Hazardous Waste and Used Electronics Waste Collection Events sponsored by the Mercer County Improvement Authority. Please see their website www.mcyanj.org for more details.

Please note: Donors are responsible for any data on all media.

Township of Robbinsville

Snow and Ice Control Information

When do you apply salt to the roadways?

When a winter storm is forecast, Robbinsville Township employees utilize 6 dump trucks to apply salt to the roadways. When we apply salt, we follow an anti-icing policy which involves spreading salt as early as possible to prevent snow and ice from bonding to the pavement surface and keep it in a plowable condition. This practice significantly reduces the amount of salt needed to maintain our roadways in a passable condition. Currently, we utilize solid rock salt for anti-icing.

How long does it take to spread salt on the roads in the township?

Presently, it takes about 3 ½ to 4 hours to apply rock salt to all of the roads in the township.

Are you investigating any alternatives to your current anti/deicing materials?

We are always looking for smarter ways to accomplish the many tasks we perform more efficiently and cost effectively. We once considered a setup to treat our rock salt with liquid calcium before applying it to the roadways. This practice allows the salt to work more effectively, therefore reducing the amount of salt used. The downfall to this practice is that calcium is highly corrosive to our trucks & equipment, potentially creating the need to have to replace brake lines, fuel lines, rotors, drums, etc., therefore, we decided against it. Another option utilized by our neighbor, Hamilton Township, is using liquid salt (brine) as an anti-icing chemical. Brine can be applied well ahead of the onset of forecast frozen precipitation and is significantly less expensive than most other chemicals used for anti-icing. Although this practice has proven to work on highways such as the NJ Turnpike, the 95's, etc. it remains to be seen whether it is as effective on local roads which have considerably less traffic. If you do not have the traffic to dissipate the melted snow, the brine solution becomes diluted and in colder temperatures can freeze and do more harm than good. These roads typically would still have to be salted so we would be doing twice the amount of work.

How much snow must fall before you begin snow plowing operations and what roads get plowed first?

When a weather forecast for snow is received, and the forecast is calling for plowable snows (usually 2 inches or more), plows are installed on all trucks and equipment prior to the onset of the storm. When plowable snow accumulates on the pavement, Robbinsville Township employees begin plowing operations on all primary roads. On the primary roads, every attempt is made to keep the roadway clear of snow "curb to curb". Primary roads are maintained in a passable condition throughout the entire storm. Once the primary roads have been deemed passable, and that condition can be sustained with fewer resources, (usually when the snowfall ends) the plows are sent into the developments. We will then plow the development streets from "curb to curb". Driveways will not be cleared.

How many miles of Roadway is Robbinsville responsible for?

Robbinsville has approximately 84 miles of roads that are township responsibility. Route 33, Route 130, Robbinsville Edinburg, Robbinsville Allentown, Church Street, Windsor Rd. from Main St. in Windsor westerly, and Old York Rd. are all either state or county responsibility.

How many vehicles do you use for plowing?

Currently, there are 18 trucks, 1 loader, 1 backhoe and 1 tractor that the Township owns and utilizes for plowing. During heavier snow accumulations, our sanitation trucks can be used as plow vehicles. Private contractors may also be utilized to supplement the plowing operation.

Who is responsible for clearing sidewalks?

The property owner is responsible for clearing the sidewalks. When clearing sidewalks / driveways, snow should not be shoveled or blown into the streets.

TIPS FOR DEALING WITH A WINTER SNOWSTORM

- 1) If possible, remove your vehicle from the street whenever plowable snows are forecast.** Vehicles parked along the curbs make it difficult for plow operators to clear the roads. (See ordinance below)
- 2) If possible, please avoid driving or parking on the roads during or immediately after a heavy snowstorm.** The less traffic our plow operators encounter, the more efficiently they can get the roads cleared.
- 3) Do not shovel or blow snow into public streets.** This not only defeats the purpose of our snow plowing but creates unsafe conditions for all drivers. All shoveled or blown snow should be piled in your yard or in the area between the curb and sidewalk. There is an ordinance prohibiting this action, and you may be issued a summons / fine for violation.
- 4) We will not clear driveway openings.** During the course of plowing snow off of the roads, driveways may get plowed in (snow deposited in front of the driveway opening by plow trucks). This is unavoidable. To minimize this inconvenience, residents are encouraged to clear the area of the roadway (adjacent to the curb) to the left of their driveway (when looking at the street from their property). Most of the snow, being carried by the plow, will drop off in that area before reaching the driveway. Unfortunately, it is often necessary to plow some roads more than once (especially those roads that were plowed early in the event); consequently, you may have to open up your driveway more than once.
- 5) Portable Basketball Hoops, Hockey Nets, etc.** Objects such as these or any other item placed in the street should be removed to avoid being damaged by our snow plows.

PLEASE BE AWARE OF THE FOLLOWING PROVISIONS IN THE TOWNSHIP CODE BOOK

Ordinance 2001-37

Chapter 225. STREETS AND SIDEWALKS

Article III. Street Deposits and Obstructions

§ 225-19. Snow.

No person, firm or corporation shall dump or push snow onto a Township road that in any way causes or results in damage to the road or road surface or to the traveling public or causes or results in the obstructing or delaying of the movement or flow of traffic.

Ordinance 2003-21

§ 7-10. Temporary parking prohibition for snow plowing and removal.

Whenever snow has fallen and the accumulation is such that it covers the streets and highways, an emergency shall exist, and no vehicle shall be parked on the streets or highways or portions thereof indicated.

The above parking prohibitions shall remain in effect after the snow has ceased until the streets have been plowed sufficiently and to the extent that parking will not interfere with the normal flow of traffic.

Any unoccupied vehicle parked or standing in violation shall be deemed a nuisance and a menace to the safe and proper regulation of traffic and any police officer may provide for the removal of such vehicle. The owner shall pay the reasonable costs of the removal and storage, which may result from such removal before regaining possession of the vehicle

The effectiveness of this subsection is contingent upon signs being erected as required by law.

E. Unless other penalty is expressly provided by New Jersey Statute, every person convicted of a violation of this subsection or any supplement thereto, shall be liable to a penalty of not more than \$50 or imprisonment for a term not exceeding 15 days or both.
